

**DREAMACRES COMMITTEE MEETING  
SUNNINGDALE SCHOOL LIBRARY**

**OCTOBER 12, 1999**

**ATTENDANCE**

In attendance were: Maggie Linton, Phyllis Kingsley, Marius de Bruyn, Jeanne Mortimer, Karen Brock, Ruth Borst, Beverley Bell, Gail Copeland, Robbie Iles and Trudy Walker.

The meeting opened with a warm welcome to new faces, introductions, and a brief background to the Dreamacres project. (More information on Dreamacres can be found at the Web site <http://plus-design.com/sunningdale/> or if you don't have access to the Internet, phone Ruth at 257 4848 and I can send you some background information).

**OLD BUSINESS**

1. CANADA TRUST  
The Dreamacres Committee has to account fully to Canada Trust for the \$4,000 grant received. This had been completed up to December 1998. Receipts still have to be submitted to them for two replacement trees. (Karen to action) The possibility of applying for a grant again was discussed.
2. SHELL FUNDING  
We have until December 2000 to spend the remainder of the \$5,000 from Shell (of which \$2,500 was provided up front). Approx. \$1,000 remains to be spent on (as stipulated) native shrubs and trees, topsoil and mulch, not on structures. Approx. \$2,200 is owed to the school for an advance given, and some receipts are still required. (Karen and Maggie to action).
3. SIGNS  
Signs need to be made for the back of the schoolyard and one sign is needed for the front. (Marius to action, together with Peter Kleschnitzki).
4. BIRDHOUSES  
The birdhouses were vandalized during the summer. Ginny and Mark Devenish have offered to repair them. Squirrel baffles will be needed (Jeanne's father to make 1 for now). Another hole needs to be dug at the front of the school for a birdhouse there. This could be done at the same time as the flagpole.
5. FLAGPOLE  
The flagpole, taken down last year, needs to be replaced and erected in a different spot. (Phyllis to continue to coordinate with Hydro).
6. MAPLE BEECH FOREST  
In order to complete the Maple Beech forest at the front of the school, we need directional drilling to tunnel under the asphalt and connect the irrigation system to the school building. A compressor is needed for draining (request a compressor via next school Newsletter – Maggie to action).

**NEW BUSINESS**

The following is a complete list of "New Business" items. However, due to time constraints only a few were discussed. They will be carried forward to the next meeting.

RESOLUTION TO THE BOARD  
GARBAGE PICKUP (GREEN PATROL)  
SCHOOL PROGRAMMES – TIMETABLING  
NEXT PHASE  
TOPOGRAPHICAL SURVEY  
SUMMER WATERING SCHEDULE  
TRENCHING  
GRASSROOTS IN ONTARIO  
PLANT SALE  
STEPPING STONES
